City Council Faces Important Legislation In Next Meeting

PASSAGE OVER MAYOR'S VETOES SEEM PROBABLE

Recodification of Traffic Will Be Presented To Solons

ROLLINS STATUS AGAIN A PROBLEM

Cannot Take Action On New Street Name Measure

City council faces one of the most active and important sessions of the year when the city solons gather on Tuesday.

Action on Mayor Phil G. Hiddleston's veto of the ordinance providing for the recodification of the city's traffic regulations, receiving of the mayor's veto of the street naming measures and his letter of explanation and City Solicitor Cecil K. Scott's legal opinion on the status of Frank L. Rollins, disputed holder of the position of first ward council representative, together with other important civic measures, will be brought up in the legislative session.

Tuesday night will mark almost an entire year since the street naming project was brought into existence, at the agitation of the Kiwanis club, while the Rollins case dates back more than a year. The traffic ordinance was vetoed by Mayor Hiddleston at the last meeting of the body.

Matters Are Important
Each of the matters are considered of greatest importance throughout the city, as the climax in three civic disputes will have been reached.

Council will not be permitted to take action on Hiddleston's veto of the street bill, but, according to the end of its members at the last meeting, is unanimously in favor of overruling his opposition to the traffic ordinance, which they can do at the coming session.

Solicitor Scott was delegated by council, a month ago, to investigate into Rollins' status as councilman, and will submit his legal decision on the subject. Rollins, due to the fact that he holds a position as janitor of Prospect school, upon which state officials have based rulings which state he is not qualified to hold seat in council, has not received his monthly paycheck since March, 1928.

MARSHAL FOCH REPORTED LOW

Famous French Leader Is Suffering From Relapse

Paris, March 16.—Marshal Ferdinand Foch, famous French soldier, who is ill of heart and kidney trouble, suffered a serious relapse today. Nine doctors were hurriedly summoned into consultation at the bedside.

An urgent operation was necessary but the doctors decided the patient was too weak to stand the strain.

Despite his excessive loss of strength the marshal's temperature was normal.

Members of the Foch household were deeply worried, believing that the low mark of the marshal's long illness has been reached.

A member of Marshal Foch's staff told International News Service: "It seems now that only a miracle can save him."

The shooting occurred in the Scott home here a short time after the father and children had returned from church.

Mrs. Scott stepped in front of a bullet intended for Charles H. Jr. The father used a pistol in his attempt to wipe out his family and a shot gun to kill himself.

MEXICAN ARMY CHIEF VISIONS REVOLUTION AT UNSUCCESSFUL END

Calles Claims All Forces Are Fleeing Before Driving Tactics of Federal Troops; Plans Verify Flight of Insurgents

Mexico City, March 16.—The federal government today was confident that the backbone of the Mexican revolutionary movement was broken.

Secretary of War Plutarco Calles who has established his headquarters in the city of Durango which the Federalists took without opposition yesterday, informed President Portes Gil that he had slight hopes of forcing the Rebels into an open battle either on the Torreón front or anywhere else.

He stated that the fall of Durango and the Federal concentration before Torreón appeared to have taken all the fight out of the Rebels. He expressed the belief that the Rebels were in retreat at all points where the two armies are opposed.

Gen. Saturnino Cedillo, leader of one of the eastern flanks of the Federal army informed the president by telegraph that airplane observers who flew over the Rebel concentration stated that Gen. Escobar's troops were making preparations for retreating into the state of Chihuahua.

Having occupied Durango and transformed it into a base, Gen. Plutarco Calles, field commander of the Mexican federalists, today was moving his army into battle positions in front of the rebel lines on the Coahuila-Durango border.

There were indications that the rebels under Gen. Juan Escobar might not give battle to the federalists. Outnumbered more than two to one and lacking artillery and airplanes, the rebels were obviously nervous over the outcome of a general engagement.

The insurgent's positions have been virtually surrounded and it is believed they have been cut off from

their base in Chihuahua City by the mixed forces under Gen. Juan Almazan and Gen. Saturnino Cedillo. The rebels claim that 900 federalists maintained the rebel standard.

The Mexico City government claims that the backbone of the revolution has been broken.

ARNOLD'S FATE IN BALANCE AS JURY GETS CASE

Alleged Kidnapers of Melvin Horst Now Await Verdict

VERDICT MAY REST ON HANNA BOY

Sentence May Run Up To Twenty Years In Ohio Pen

Wesley, O., March 16.—The fate of Elias and Arthur Arnold, father and son, on trial here for the alleged kidnaping of four-year-old Melvin Horst, was given into the hands of the jury of seven men and five women at 10:13 o'clock this morning. It is for the jury to decide whether the two Arnolds are guilty of the abduction of the little boy from the streets of Orrville on the night of Dec. 27.

Melvin has not been heard from or seen since that night, and authorities now believe he is dead.

Judge George A. Starn's instructions were brief. He told the jurors that if they had any "reasonable doubt" of the guilt of the Arnolds they should acquit them.

It is freely admitted that the state's case against the father and son rests on the testimony of Junior Hanna, 9-year-old child witness, who testified from the witness stand that he saw the two Arnolds place Melvin in an automobile and then drive away.

After Judge Starn's instructions, the seven men and five women slowly filed from the jury box and entered the musty little chamber at the rear of the courtroom to decide whether or not they should believe the testimony of the "boy-witness."

The specific charge against the Arnolds is "child-stealing." According to Ohio laws, the Arnolds, if found guilty, can be sentenced to the Ohio state penitentiary for a term of from 1-to-20 years.

TEN SUSPECTS IN COLUMBUS PRISON

Zanesville Doctor Says He Lost \$100,000 in Doctor

Columbus, March 16.—Ten alleged gamblers and gunmen from Detroit, Cleveland and Columbus, were under arrest today, guns, ammunition, bombs and gambling devices were in the possession of authorities and another chapter was written in the history of the Southern club, Pickaway county's supposed "Monte Carlo," near here, following a quiet raid on a fashionable downtown hotel here late yesterday.

The raid and arrest followed a complaint made to police here that a Zanesville physician had lost \$100,000 at the Southern club, according to raiders, all of the men admitted having some connection with the Southern club or the Western club, the latter an alleged gaming resort on the outskirts of the city here.

Gambler Is Arrested
Among those taken into custody was William Schwartz, Columbus gambler and gambler, and who recently gained statewide notoriety when he made private business trips while supposedly serving out a federal prison term in the Delaware county jail.

Nearly all of the men are believed to have given "phony" names, as it is expressed in police parlance. Despite the fact they gave Columbus addresses, police here, though refusing to give their real names, said they were known gunmen.

All were quartered in luxurious large rooms or lavish suites in the (Continued on Page 4)

The group at first refused to leave the boat and demanded their rescuers produce warrants. It was some time before they could be made to realize their danger.

A shot was being set off under a drilled bank of coal, and bits of coal and rock struck Lewis on the left side just as he was passing the room.

Fear has been entertained that he may lose the sight of his left eye. Bits of coal and slate have been imbedded in the flesh of his left side. He was removed to the Central Clinic at Salem in the Ellis ambulance for treatment. Lewis is married and has three children.

Nearly Two Thousand Cling To Roofs While Rescuers Afford Aid

Great Southland Area Under Water of Swollen Streams and Rivers; Fifteen Thousand Need Immediate Aid

BULLETIN

Montgomery, Ala., March 16.—Five thousand persons are hanging on to the highest roofs in Geneva, Ala., for their lives, while swirling waters that have submerged all one-story buildings cut wide torrents across the town, reports received here today said.

A radiogram from an army observation plane over Geneva received by the 22nd Observation Squadron, U. S. Army, here, said:

"The people at Geneva are working in boats and the situation looks bad."

Forty-five minutes later another message was received from another plane flying over Geneva. It was signed by Technical Sergeant F. L. Choate, and read:

"Situation looks worse at Geneva than at Elba. Majority of the houses and store at Geneva are already covered with water."

Atlanta, March 16.—From the Atlantic seaboard westward to the swollen father of waters, the south-east today presented an appalling cyclorama of death and destruction.

Twenty-six persons dead in the southeastern sector, millions of dollars damage to property, something like 20,000 homeless and suffering from exposure and hunger, and probably many hundreds drowned whose bodies will not be discovered until the flood waters recede.

Enormous Toll Expected
That was the southeast's enormous toll exacted by spring floods, as compiled in the International News Service bureau here. There are thousands of lives still in peril, and further developments or unavoidable tardiness in rescue may increase the death list considerably.

Overflow from streams approached a cataclysm at a half dozen Alabama points. Meanwhile parts of Mississippi, Tennessee, Georgia, northwestern Florida and Arkansas were under water, and in the Carolinas the swollen streams were threatening to leave their banks momentarily.

Thirteen of 26 fatalities were recorded in the flood-ravaged southern Alabama section. Four persons were drowned when their boat overturned yesterday in the flood area. Five were known dead in the Elba area, and a railroad employee at Flomaton was reported drowned. Three persons were drowned near Birmingham earlier in the week.

Georgia's Toll Grows
Georgia's death toll grew to 13 when a railroad employee was killed by a washout near Manchester. Flood waters which had not receded Wednesday and Thursday when rains poured additional cascades in to the swollen streams had previously claimed 12 lives.

Some improvement was seen today in the Elba district, a mad maelstrom at the confluence of the Pea river and White Water creek which left only house-tops showing above the vast expanse of water that reached for miles around.

During the night more than 1,000 of the town's 4,000 marooned population were conveyed by small motor craft to the safety of refuge camps, and the water was slowly receding.

Accounts of the disaster that has befallen Elba were relayed here by national guardsmen observers. One report said the pitiful sound of hundreds of women and children crying and screaming in terror from their porches in trees and on house-tops could be heard at the camp. These piercing cries spurred the rescuers to superhuman efforts to reach the terrified victims.

It was feared by rescuers, however, that other buildings in the town might collapse before the refugees could be taken to safety.

It is believed that all residents will have been removed from the town by tonight and that all will be saved unless some of the buildings in the town collapse before the rescuers can reach them.

Observers Fear Flood Death Toll Will Mount To Hundreds

National Guard Relief Base, Near Elba, Ala., March 16.—With five persons known to be dead and Mayor R. L. Cooper of Elba, listed among the missing, approximately 900 of the marooned Elba citizens have been brought safely out of the flood-stricken town today.

Upwards of 1,500 more are still marooned in tree tops and flood encircled buildings.

Five were known to be dead in the Elba catastrophe, and two were missing. But just how many probably are dead will not be known for days until the water recedes.

Aviators who have flown over the flood district believe that the toll possibly may run into the hundreds.

Miserable little groups of persons were described huddled together on tiny peaks of high land and on tops of buildings, the flood waters lapping at their feet, throughout the devastated sections.

It was feared that in the scattered rural sections where the water reached depths varying from 15 to 20 feet that the cost in life will be high.

Aviators reported widely-separated groups clinging precariously to life in scattered and isolated places in the Elba area. To some of the terror-stricken townspeople in Elba bread was dropped from airplanes.

Some of the food would drop into the swirling torrents, and men would dive into the water for it.

It was also reported by flyers returning from the area that there were several trains stranded in the devastated regions.

Houses were described floating round in water which at some places reached 35 feet.

NO SLOWING UP SEEN

Although credit conditions continue to receive more attention than any other factor in the business situation, there is little evidence that the high rates are exercising a restraining influence in any phase of national commerce and industry, reports Sales Management magazine in its current national business survey.

To the contrary, the survey finds such key industries as automobiles and steel producing at a "notably high level" for this season, while freight movements are greater than for the corresponding periods in any of the past three years. Commodity prices also are found to be recovering smartly from their recent sagging tendency.

Railroad freight in the week ended February 16—the latest period officially tabulated—filled 958,051 cars which is 69,465 more than in the same week of 1928 and 3,257 more than in 1927. Compared with 1926 the increase was 25,770. Very large coal shipments continued to be a prominent feature of the gains, but all classifications were up over last year except live stock, merchandise and forest products.

Bank figures for the week ended February 22 were thrown out of line for comparative purposes by the Washington's birthday holiday. Debits against individual accounts, for example, amounting to \$20,111,132,000, were 56.6 per cent more than those of the five-day week last year, with substantial increases in all districts.

Commodity prices advanced sharply, the Irving Fisher index rising from 97.4 to 98.

Money continued tight in all markets. The call rate ruled at from 7 to 9, time loans at 7 3/4 and commercial paper at 5 3/4 to 6.

What Others Say

REFERENDUM ON WAR
Following up the Kellogg pact against war, Rep. Hamilton Fish, Jr., has introduced a resolution into the congress the effect of which would be to require a referendum to be submitted to the people before any war could be waged save in defense of the United States. Such proposals as this are usually condemned on two distinct counts. By those of a pacifistic inclination, they are condemned as too weak, allowing anything to be put over on the people as "defensive war." By those of a jingoistic slant, they are condemned as a danger to the policy of self defense and protection of national interests.

However, the proposal of Mr. Fish is more properly to be criticized on a totally different basis. Delving back into the mysteries of how wars start, we find that a period must always be allowed, before any major war, in which to prepare the minds of masses of people for any governmental action. A provision for a referendum, while naturally founded on the theory that people as a whole are opposed to war, is nevertheless apt to give an excellent opening for such a period of propaganda.

Any one who considers the pitch to which people are aroused, emotionally, by a presidential election, will not fail to realize that a referendum on war merely would give the jingoists their opportunity to arouse hatreds and fears where none need exist for any sound reason. No, the way to peace is not by majority vote on war. The way to peace is more nearly through the election of honest and far-sighted men to public office—men who realize at the outset that war is folly and will shape policies in such fashion as to avoid hostilities.—Cincinnati Enquirer.

DR. COPELAND

This should not be true. If we lived right, it wouldn't be. At least, it wouldn't be the case if back of our own right living, was a record of right living on the part of our ancestors.

But alas! We must endure many disagreeable symptoms. But let's do our part to escape their exasperating effects. With every moment of correct living, will come increased prospect of dodging these little evils.

The Stars Say

For Sunday, March 17
SUNDAY'S horoscope is not an important one, excepting for affairs of the church and professional activities. It is a good time for correspondence or for inaugurating publicity campaigns or enterprises which may be handled by mail. There is a menace of some personal disagreement.

Those whose birthday it is may have a year of conflicting interests, with some activity in connection with letters, writings or publicity, but personal affairs may not be entirely pleasant. A child born on this day may be enterprising as well as gifted in many directions. It should make fair success in life.

For Monday, March 18
MONDAY'S horoscope forecast is not entirely fortunate although it makes for activity and new ventures. It would be well to postpone change and travel until a more propitious rule of the planets.

Employment seems to be in jeopardy and there is a hint of some stubborn obstacle to be removed by industry and determination. Those whose birthday it is may prepare for a year in which obstacles must be removed by perseverance and patience. While new ventures present, and with fair prospects, yet there is a menace from change and employment is in jeopardy. A child born on this day may be versatile and talented but erratic, stubborn and may find it difficult to get along in employment unless well trained and disciplined.

World's Easiest Driving Control

NO OTHER CAR in all the world controls quite so easily—with such complete lack of effort—as the new Nash "400".

Nash engineers have developed a new steering mechanism to achieve this result. An ingenious arrangement of roller bearings and a roller-tooth traveling in a worm gear, reduces friction to a minimum hitherto thought impossible.

Women drivers find new help and gain new confidence in parking. Little

effort is needed to bring the "400" up to, or away from, the curb.

Gear shifting is just as easy. The "400" clutch pedal depresses at a touch, scarcely resisting the weight of your foot. The conveniently placed shifting lever moves smoothly, easily, from one speed to another.

If you ever find that driving a car tires you, try driving a Nash "400". It will give you an entirely new conception of how effortless, how pleasurable, motoring can be!

SHERIFF FACES JURY CHARGES

Cuyahoga Official Is Said To Have Padded Food Bills of Jail In Cleveland

Cleveland, March 16.—A recommendation that the April grand jury continue the investigation of charges that food bills for the county jail were padded in the previous term of office of Sheriff E. J. Hanratty, 1917 to 1921, is contained in a report by the present county grand jury, on file in the clerk's office today.

Sheriff Hanratty is criticized for "carelessness" in the report, and the fact that he has made restitution does not free him of responsibility, it is declared. Several members of the grand jury were said to have favored returning an indictment against the sheriff.

Executors Must Get Permit To Sell Stocks And Bonds

Lisbon, March 16.—When executors and administrators of estates seek to sell stocks or bonds that are a part of the estate they are charged with the matter is first referred to the tax commission at Columbus, where an order is issued permitting the sale.

The tax commission then notifies the probate court, and this order is checked up with the schedules of the estate then on file.

It is now discovered that some executors and administrators have "covered up" such stock and bond holdings in the original schedule, and now the "missing" issues are being added to the schedules by the court and additional inheritance

tax is being determined on such valuation. Several such instances have been uncovered in probate court by Judge Lodge Riddle recently, and those responsible for filing the original schedules are to be asked to come into court and make corrections in the schedules.

Every time an executor or an administrator desires to dispose of stocks or bonds that are a part of an estate, no sale can be completed until the authority of the tax commission is granted, and then this application for permission to sell is checked against the schedule of the estate then on file in probate courts. As a result of this checking, one Columbiana county estate was jumped from \$17,000 to \$28,000 Friday afternoon.

hotel. When detectives arrested Schwartz, he was conferring with A. A. Porter, a Zanesville attorney, who, it is said, represents the interests on the Zanesville physician.

Police found two bombs, a number of guns, 17 sets of dice, a roulette wheel, and a quantity of bonded liquor. Those having the whiskey in their possession were turned over to federal authorities. The others are held on suspicious person charges, while police communicate with other cities to see if any of the men are "wanted." Schwartz gained his liberty on bond, a short time after his arrest.

Large Amounts Lost

This is not the first time that large amounts of money were said to have been lost at the Pickaway Country club, situated about 18 miles south of here. A Columbus girl recently charged that she lost \$7,000 at the club, and two well-known actors, filling an engagement at a local theater here, are said to have lost \$10,000 in one night at the club.

District Attorney W. B. Bartels here has notified Pickaway county authorities that gambling has been going on at the club, but subsequent raids revealed no law violations.

Those arrested last night, who gave Cleveland addresses are: Dan Gallagher, and John P. Jones.

This raid recalls to mind the recent spectacular raid made by Cleveland police on a large hotel in that city when nearly 30 known gunmen from Cleveland, Detroit, Chicago and New York were arrested as they were in the midst of a "gangster convention."

ular area, still appeared to be the most critical point of the flooded territory.

Enterprise, Ala., March 16.—When the first streak of a gray and dismal dawn pierced the fog-laden Elba flood area today, several scores of small motorboats operated by Alabama National Guardsmen, advanced again upon the ravaged town in an attempt to rescue more than half of its 4,000 population still clinging to housetops and trees.

Enterprise, Ala., March 16.—According to officers at the National Guard base on the edge of the flood sector, nearly half of the terror-stricken residents of Elba have been taken to emergency refugee camps put together hastily on high ground in Coffee county. Dire tales of suffering were related by some of the refugees, who suffered for 48 hours from exposure and hunger.

Plain French Dressing Is Always Safest Selection

A group of us were dining at a pleasant foreign restaurant, and at the salad course we heard an exclamation of wifely solicitude from one of the women in the party.

"But, Henry, you never eat salad at home!" Henry looked up slightly abashed, from the large plate of lettuce he was consuming with obvious gusto. "Oh well," he mumbled, "these leaves are just an excuse to mop up the snappy dressing."

Which didn't improve matters for the injured wife aired her grievance—she had salad home every night, with the most delicious dressings. Thousand Island and Russian and what not, and Henry never so much as looked at it. Which makes Henry somewhat typical for the average man, given the choice will "make it plain French dressing." And he will make fun of the elaborate creamy dressings, without which no women's luncheon can be a success.

When in doubt as to what people like, it's always safe to prepare a good French dressing. Not too city. Not too acid. To get the best results, measure most carefully. French dressing seems so easy to throw together—it's merely oil, vinegar and seasonings—that it's a temptation just to pour the ingredients from

jug to bowl and trust to the eye for measurement—with undependable, if not unpleasant results. It's absolutely necessary to measure and to measure accurately in order to achieve the dressing in which neither oil nor acid predominate. A good French dressing is a perfect blend, smooth and with just the right pleasant tang.

Here is a standard and rememberable recipe:

FRENCH DRESSING

3 tablespoons oil
1 tablespoon vinegar
1/2 teaspoon salt
1/4 teaspoon pepper

Put the salt and pepper in a bowl, add the oil and stir, then add the vinegar, a little at a time. Keep chilled until ready to serve.

The French and other Latin cooks introduce a flavor which vastly improves the salad dressing, but which is regarded with undeserved contempt in this country. They take a clove of garlic, cut it in half, rub the dressing bowl with the cut side of the garlic and then throw the garlic away. After this the seasoning, oil and vinegar are added. The result is a delicious, unidentifiable flavor. If garlic can be detected by taste or smell, too much has been used. It requires only a faint rubbing of the bowl to impart just enough to pep up the dressing.

Be sure to have all the ingredients cold. Good vegetable or olive oil won't produce a finely flavored dressing. To vary the flavor of ordinary French dressing any of these ingredients may be added:

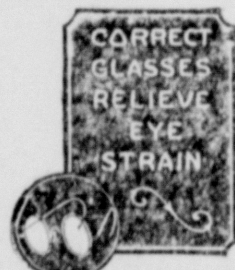

Tarragon vinegar instead of malt or cider vinegar
A dash of Tabasco
A tablespoonful of meat or chicken gravy
One-half teaspoon of Worcestershire sauce
A tablespoon of either chopped pickle, parsley, olives or pimento
A teaspoon of prepared mustard
A teaspoon of onion juice
A tablespoon of grated Roquefort cheese

Most important—keep the lettuce leaves cold. After they are thoroughly washed, put in a lettuce bag and keep on ice until needed.

COURT NEWS

Non-Support Charge Against Salem Man

Lisbon, March 16.—William Humphrey, residing near Salem, entered a plea of guilty before Probate Judge Lodge Riddle to failure to support his aged mother, Annie Humphrey. The defendant is employed by the Denning company at Salem.

The court suspended sentence in this case when the defendant posted \$1,000 bond that he would contribute \$10 per month to the support of his parent.

Bond Forfeited

A cash bond of \$300 given by S. C. Rippeth, a former undertaker at East Liverpool to guarantee payment of a non support order entered in probate court, has been declared forfeited by Judge W. F. Lomas, and now this money is to be turned over by W. H. Hapburn, of Lisbon, surety to the court. When Rippeth failed to support his family, he was returned to the lower court, and then sent to the Canton workhouse. The forfeiture of the bond was the outcome of an action filed in common pleas court by the state of Ohio on relation of John McShane, probation officer against Rippeth.

Divorce is Asked

Hazel Berger of Salem, in a petition for divorce filed for her by Metzger, McCarthy & McCorkhill, relates that her husband, Fred Berger, Jr., of R. F. D. 2, Salem, purchased a revolver and threatened the life of the plaintiff, this 14 months after they were married at Lisbon, Nov. 29, 1919.

The petition relates that her life

was again threatened in the fall of 1926 and that Sept. 22, last she was choked and knocked down by the defendant.

Gross neglect of duty and extreme cruelty is charged in the petition, which also tells of spending \$12,000 she inherited to support herself and three children and her husband.

The plaintiff now declares she is destitute, although she has kept boarders and done other work to support herself and children.

Both temporary and permanent alimony is sought in the petition in addition to a decree for divorce and the custody of the three children.

"I reach for a Lucky instead of a sweet"

"Whirling along the ground at 231 miles per hour to a new world's record was a thrilling experience. It was speed in breath-taking fashion. When I finally brought 'The Golden Arrow' to halt, the nerve let-down was terrific. But out came my pack of Lucky Strike and I soon was smoking in complete happiness. After the strain of my ride the toasted fragrance of Luckies was like a tonic. I reach for a Lucky instead of a sweet. I want to keep trim and fit. I want to feel the glow of pep and health at all times—the thought of excess weight really frightens me. I welcome a Lucky instead of sweets and things that would make me soft."

H. O. D. Segrave

H. O. D. SEGRAVE,
Noted Automobile Racer who broke the world's record on March 11th at Daytona Beach, Florida

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This confirms in no uncertain terms the public's confidence in the superiority of Lucky Strike.

War Picture At Grand

A scene from the Ufa Production "Behind the German Lines" A Paramount Release

"Behind the German Lines" will be shown at the Grand, four days, starting Monday.

MOVIES—WITH ART

"The Duke Steps Out" starring William Haines, Joan Crawford and Karl Dane, billed as one of the outstanding screen productions of the current season, and which has as yet not been released for showing in any playhouse in America, will be shown at the State theater, next Friday and Saturday, Manager Virgil Rakestraw, of the State and Grand theaters announced today.

Rakestraw made a special trip to Cleveland Friday afternoon to complete negotiations for the picture, and is almost assured that it will be given its virgin showing in this city.

"The Duke Steps Out" is not alone the outstanding feature of the week's schedule at the two theaters. "Behind the German Lines," a war spectacle, screened on Teuton battle fronts, and published by UFA will be shown at the Grand for four days, together with the official pictures of the Sharkey-Stribling fight.
